

Manufacturing over three centuries

The Morris Furniture Group has enjoyed a rich and successful history spanning 3 generations of the Morris family. Born in the late 1800's Harris Morris steered the Morris Furniture Company through production for top hotels, Cunard liners, thousands of cinema seats, cabinets for radios and Wurlitzer jukeboxes.

Harris's son Neil ensured Morris played a key part in the war effort helping to produce Enfield rifles, barrage balloons and Mosquito aircraft. A magnificent bedroom suite was created as a wedding present for Princess Elizabeth and the Duke of Edinburgh. Neil's son Robert, joined the company in 1973 and larger premises were found for new machinery and systems. Conservation and the environment became an important and award-winning concern.

In the 1990's Morris acquired new companies and premises with ever increasing turnover and over 500 staff. The turn of this century has brought continued success with further acquisitions and a staff roll of over 1000.

The Real Wood Story

Morris Furniture has always prided itself in the use of the best possible raw materials from sustainable resources. Over many years we have insisted that 'for every tree cut down that a new tree is planted', investing in our future and that of our planet.

From engineering wood and solid timbers, Morris has grown as the 'founder of modern furniture manufacture' to one of the largest manufacturers of cabinet furniture in the UK.

Today, Morris use more solid timbers than ever before, carefully monitoring the moisture content of this natural product, creating carefully blended colours and textures to give you the products suited to today's lifestyles and tastes.

Furniture Care

Morris Furniture selects its raw materials with extreme care, to enhance the natural characteristics of the wood and ensure any serious mis matches are eliminated. We cannot guarantee that any one piece of furniture will exactly match another - indeed, any variations in grain or colour are part of the natural beauty of the wood and over times the colours and shades will blend with the patina of age.

To prolong the good looks of your furniture, avoid prolonged exposure to sunlight; and move your display objects around from time to time. The only care your Morris furniture should need is an occasional wipe over with a damp cloth followed by a light polish.

Environment

The Morris Furniture Group has pledged to uphold best practice in terms of waste management, gas emissions, sustainability and much more besides. Working closely with the Scottish Environmental Protection Agency, every effort is made to minimise the impact we have on the environment, from sourcing raw materials through to their transformation into finished product at our Glasgow factory.

Our timber is sourced only from well managed, fully sustained and FSC approved forests. Recycled materials are used wherever possible.

All fabrics used in the manufacture of these products are tested in accordance with the Furniture and Furnishings (Fire) (Safety) Regulations 1988, amended 1989 and 1993. All foams are combustion modified. This catalogue is copyright H Morris & Co Limited. All rights reserved worldwide. The Grange Collection

Description and Dimensions

*Denotes ready to assemble

Please note that colours/finishes shown in this brochure are intended as a guide only. Product information correct at time of publishing. The company has a policy of continuous product development and reserves the right to change any product and specifications given in this brochure.

The Grange Collection

The Grange collection is yet another first for Morris, this rich rustic collection is made from natural American and European Oak. It has all the features you would expect from such an established name including natural timbers, (tongue and groove) drawer boxes and dovetail joints. This combined with the compact farmhouse feel helps make this range the condensed classic that is perfect for today's modern home.
